

Fun Facts about Dinosaurs

The word Dinosaur comes from the Greek meaning for 'terrible lizard'

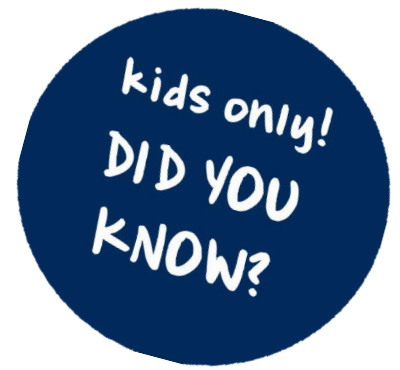

Dinosaurs ruled the Earth for over 160 million years, until they became extinct around 65 million years ago

The first Dinosaur to be named, was the Megalosaurus, in 1824

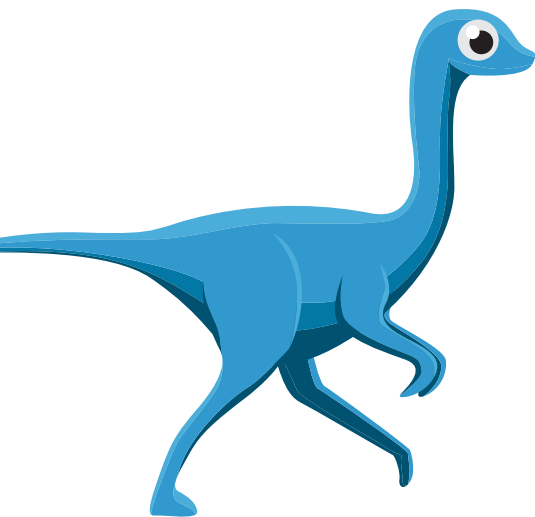

Scientists think that some Dinosaurs could have lived for as long as 200 years

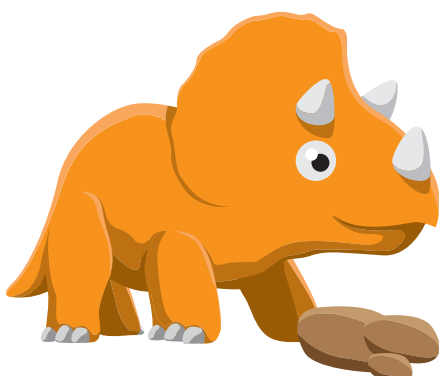

Fun Facts about Dinosaurs

Most Dinosaurs were actually about the same size as humans or even smaller

Meat eating Dinosaurs walked on 2 feet leaving their hands free to grab their food, whilst plant eating Dinosaurs walked on all-fours

Most Dinosaurs were vegetarians

Dinosaurs often swallowed large rocks, which stayed in their stomachs and helped them grind up their food
