

Bird Seed Feeders!

you will need...

yoghurt pots
pencils
good bird seed
lard (room temp)
strong string
scissors
mixing bowl

follow these easy steps...

one:

Wash out your yoghurt pots and leave them to dry. Carefully make a hole in the bottom of the yoghurt pot with your scissors and poke a pencil through.

two:

Mix together the lard and the bird seed with your hands - add the lard a bit at a time until the fat becomes stiff.

three:

Fill the yoghurt pots around the pencil, pack them tight with the bird seed mixture and pop them in the fridge to set.

Bird Seed Feeders!

four:

After an hour the feeders should be set, carefully pop the feeders out of the yoghurt pot and remove the pencil.

five:

Thread the string through the hole where the pencil was and tie it in a big knot. You're now ready to hang up your feeders!

six:

Count how many birds come to come to your feeders!
