

## Edible Slime!

### you will need...

1 tablespoon cornstarch  
14oz condensed milk  
vanilla extract - extra  
food colouring  
saucepan  
metal spoon

### follow these easy steps...

#### one:

In a saucepan over a low heat, stir together the milk, vanilla extract and cornstarch until the mixture thickens.

#### two:

Remove from the heat and stir in the food colouring - the more you put in the more intense the colour will be!

#### three:

Let the slime cool in the saucepan off the heat.

## Edible Slime!

### four:

Wash your hands then tip the slime out and play and eat!  
Store the slime in a freezer bag in the fridge.

### info for adults!

Most slime recipes are non-toxic, but there are only a few you can eat and none that taste as good as this one!

Refrigerated slime will last for up to two days.

You can clean up the edible slime with warm soapy water. If you added food coloring, keep the slime away from surfaces which could be stained, such as carpet or upholstery.

all done!
